Dear Dongya Shen,
Your paper submission #77377, titled 'A Novel Triple-Band Antenna for WLAN/WiMAX Applications

We are pleased to inform you that the submission listed above has been accepted for oral presentation at the 2015 IEEE International Conference on Vehicular Technology-Spring in Glasgow, Scotland, May 10-14, 2015.

All authors should be aware that accepted submissions must be presented at the conference in order to be included in the final proceedings of the conference. Furthermore, as required by IEEE, VTC papers will not be posted on IEEE Xplore unless they have been presented at the conference. A valid presentation for both oral and poster papers consists of (1) submitting IEEE copyright forms, (2) registering for the conference, and (3) presentation of the paper in person by the presenting author. If you cannot attend, it is extremely important that you contact us as early as possible. The presenting author on each submission must register for the conference and pay the required registration fee as described on the conference Web site, <http://www.ieeevtc.org/vtc2015spring/>. Any presenting author who has not registered will not be able to participate in the conference, will not be able to present his/her work, and will not have his/her paper posted on IEEE Xplore.

This letter does not constitute an offer to contribute to the financial costs of registration, travel to or from the conference, or subsistence while in the USA. Authors are responsible for the entire travel cost, to and from their home countries, including hotel expenses. Attendees are strongly encouraged to reserve their flights as early as possible in order to optimize their flight schedule.

On behalf of the steering committee, we thank you for submitting this work to the conference.
